

CARE & MAINTENANCE

“MIGHTY-FINE” **HOLE-FORMER MOUNTING MAGNET**

- ◆ **CLEAN ...** the area on the steel mold where the magnet will attach
- ◆ **KEEP ...** the magnetic side of the Hole-Former Magnet **CLEAN OF DEBRIS**
- ◆ **ONLY USE ...** the associated thumb/wing screw to break the magnet free
- ◆ **REMOVE ...** the magnet **BEFORE** stripping - allowing the magnet to “ride up” the core will result in serious damage **OR** destruction of the magnet
- ◆ **KEEP ...** the thumb/wing screw **CLEAN & LUBRICATED**
... thumb/wing screw should **ALWAYS** move freely
- ◆ **NEVER ...** hit or strike the magnet or its associated thumb/wing screw
