

REBAR CLIP

Especially low-priced spacer. Designed for use in low-load applications.

MESH CLIP

Especially low-priced spacer. Designed for use in low-load applications, like pre-assembly factories.

NORM CLIP

Extremely stable plastic spacer. Designed for heavy loads and large bar support.

CLIP CHAIR

Designed for on-grade or precasting with rebar. Wide base minimizes tipping. Rebar snaps into chair easily. Minimal formwork contact.

PRECO CLIP

Designed to position horizontal reinforcement. Allows for easy concrete flow for maximum bond.

PAVING SAND CLIP

Designed for use on-grade. Wide variety of applications. Ideal for highway paving applications. D.O.T. approved in most states.

SNAP CLIP

Stable and sturdy plastic spacer. Designed for top reinforcement. Low-cost. Good concrete flow. Minimal formwork contact due to edge position.

REBAR SUPPORT CLIP

Designed to be used for "at grade" or precast applications with the use of rebar or post-tension cable. This clip comes with or without a wide supporting base. The supporting base allows the clip to stand securely. The rod snaps easily into the clip, eliminating wire tying. Made of non-corrosive polypropylene, which is non-conductive, perfect for bridge decks.
